

AECM comments on mitigating the economic effects of the corona outbreak

The economic impact of the coronavirus pandemic on SMEs is pervasive and can best be fought in joint actions of regional, national and European level. As an annexe to this paper, an overview of measures undertaken by AECM's members to counteract the economic consequences is added.

From the European level, it is essential that the support

- is provided quickly on a first come first served basis, meaning that geographical balance is of secondary importance,
- is provided in an easy to comply with way, i.e. standardized to comply with the high number of demands for guarantees,
- is provided in a comprehensive way since all SMEs suffer from the consequences. This is valid content-wise as well as regarding the funding: if no new money is available, reallocation of funding is crucial since the guarantee capacity must be increased in accordance with the increasing demand, and
- is provided in a flexible way since further developments cannot be predicted by anyone at this stage.

From AECM's point of view, the EU level should undertake the following actions to help SMEs through this rapidly evolving situation:

State aid:

A temporary framework is needed like during the financial crisis providing guarantee institutions with enlarged possibilities to support SMEs' access to finance. To this end,

- the *de minimis* threshold should be significantly increased whereas the aid should be considered as transparent irrespective of the applied method of the calculation of the Gross Grant Equivalent (GGE),
- the guarantee coverage for bank loans should be increased up to 90% for loans of up to 7 years so as to support working capital needs of companies and also their rebound on a longer term,
- it should be possible that structural funds could be used as co-financing tools in the temporary state aid framework,
- at least in relation to SMEs, the charging of guarantee fees should no longer be required,
- the duration permitted should take into account also the fact that the default of the SMEs may occur in the year n+2 or n+3,
- there should be no limit as to the guarantee rate, and
- the application period should take into consideration the bureaucracy burden often faced by SMEs and therefore, be long enough in order to allow SMEs to make use of the instrument.

Financial instruments:

20 members of AECM are using the COSME loan guarantee facility, 10 are financial intermediaries for the InnovFin SMEG and 17 are using financial instruments under shared management from structural funds. To speed up the procedure, these exceptional times require exceptional measure. Thus, we would welcome the following measures which aim at broadening the scope of existing instruments to allow for higher risk-taking:

- no time-consuming change of the legal base but an interpretation in the widest possible and in a results-driven way; if new calls cannot be avoided, there should be a simplified fast-track procedure put in place; neither any changing of existing contracts should be asked for, nor the requirement to conclude new contracts, no eligibility criteria but fast and result-oriented processing;
- allow for transactions with a duration below 12 months (e.g. 1 month) to meet the demands for short-term guarantees;
- allow for refinancing of existing credit exposures meaning that both, COSME LGF and InnovFin SMEG need to be available to refinance existing short-term working capital loans and overdrafts;
- increase the guarantee rate / percentage of EU counter-guarantees to 80%;
- allow for rescheduling, restructuring and grace periods; more precisely, it should be possible to provide companies with a grace period of 6 months for their loan interest under COSME and InnovFin while extending the termination date of these contracts with the EIF if necessary;
- dropping the innovation criteria and business plan from InnovFin;
- either decrease the reference volume or prolong the deadline or inclusion period so that those members who are confronted with a slow-down of the lending activity in their respective countries will not face the situation that due to non-compliance with the reference volume in the foreseen time to not benefit from COSME at all;
- no more adherence to the 150.000 EUR threshold of COSME or at least a substantial increase of this threshold;
- since SMEs are all affected, the criterion of COSME of high-risk should be applied to all SMEs per se no need for further assessment;
- increase the maximum cap rate of COSME from 10% to at least 20% ideally to 25% and
- expand the regular interest cover from 90 days to at least 180, better 360 days.

We would very much appreciate if the European institutions could take our requests into their kind consideration. To conclude, we would like to underline that AECM and its members stand ready assume their responsibility doing everything possible to overcome the current crisis quickly and as best as possible what will only be feasible in a joint manner.

Brussels, March 2020

Survey among AECM members as to the undertaken measures to offset the negative effects on the economy, especially on SMEs caused by the coronavirus outbreak (COVID-19) (launched on 11 March 2020)

<p>5. HAMAG-BICRO Croatia</p>	<p>The Croatian Government will propose to the EU Commission that the <i>de minimis</i> threshold is increased from 200.000 euro to 500.000 euro.</p> <p>The Croatian Small Business, Innovation and Investment Agency (HAMAG-BICRO), in cooperation with the Ministry of Economy, Entrepreneurship and Crafts, the Ministry of Regional Development and Funds of the European Union and the Ministry of Agriculture, is implementing nine new measures aimed at micro, small and medium-sized enterprises caused by a coronavirus pandemic.</p> <p>Here are nine specific measures:</p> <ol style="list-style-type: none"> 1. Moratorium on all installments of ESIF Micro and Small Loans and Micro and Small Rural Development Loans by December 31, 2020 and the extended repayment / repayment period of the guaranteed loans. These measures affect the preservation of the liquidity of micro, small and medium-sized enterprises, ensuring their stability and business continuity. 2. Increase in allocation for the ESIF financial instrument Micro working capital loans for micro and small businesses (EUR 1,000-25,000; grace period of 12 months; reduction of interest to 0,5% - 0,75% - 1,0%, depending on the development index). 3. Reduction of interest rates on investment loans ESIF Micro and Small loans, with 30% share of working capital, to 0.1% -0.25% -0.5%. 4. Increase of the maximum guarantee rate for ESIF individual guarantees for working capital loans from 65% to 80% of the loan principal (guaranteed loans guarantee amount of EUR 150,000-1,000,000) through 17 financial institutions. 5. Stronger promotion of HAMAG-BICRO's ESIF Limited Guarantee Portfolio Guarantees up to EUR 150,000 for working capital through 10 financial institutions. 6. Establishment of a new financial instrument "COVID-19 Loans / Loans" for working capital for SMEs. 7. The establishment of a new financial instrument, the Rural Development Micro Loan for working capital, provides additional liquidity to small business entities in the agricultural, processing and forestry sectors with faster and easier processing, grace periods and lower interest rates. 8. A 50% guarantee against the principal of the ESIF Micro working capital loan for the tourism sector, which significantly reduces conventional security instruments and provides a more favorable interest rate of 0.5% - 1.0%, which speeds up the overall processing process. 9. Rural Development Program - Establishment of Measure B - Individual guarantees up to 80% of the principal of working capital loans (guarantee amount up to EUR 1,000,000) implemented through 16 financial institutions. <p>https://hamagbicro.hr/mjere-hamag-bicro-a-za-pomoc-mikro-malim-i-srednjim-poduzetnicima-uslijed-pandemije-uzrokovane-koronavirusom/</p>

	<p>On 24 March 2020, HAMAG-BICRO has launched micro WC loans from 1.000 to 25.000 EUR with IR from 0,5-1% depending on the region and development index.</p> <p>Regarding the guarantees they have increased the coverage rate from 65% to 80% for WC loans and have decreased their fee from 1% to 0,1% (their fee is only one time fee).</p> <p>HAMAG-BICRO is also in close contact with their Ministry of Agriculture for micro WC loans, since now they can only approve investment loans. Including preparations for COVID loans with the Ministry of regional development for ESIF funds.</p> <p>Marijana Barsic Barun Marijana.BarsicBarun@hamagbicro.hr</p>
6. CMZRB Czech Republic	<p>Czech government approved a new program „COVID Loan” financed from the state budget (national scheme). The aim is to support SMEs that are somehow affected by the coronavirus infection and related preventive measures.</p> <p>Parameters: interest-free (working capital) loan covering up to 90% of eligible expenses of the project, loan amount EUR 20,000 - 600,000, 2-year maturity, grace period up to 1 year.</p> <p>Start of the program: 1 April 2020 Total amount of the program: ca 24 million EUR</p> <p>Petr Krupa KRUPA@cmzrb.cz</p>

BBB UK</p>	<p>https://www.british-business-bank.co.uk/ourpartners/supporting-business-loans-enterprise-finance-guarantee/</p> <p>BBB launched the Coronavirus Business Interruption Loan Scheme (CBILS) - a new scheme that can provide facilities of up to £5m for smaller businesses across the UK who are experiencing lost or deferred revenues, leading to disruptions to their cashflow.</p> <p>CBILS supports a wide range of business finance products, including term loans, overdrafts, invoice finance and asset finance. The scheme provides the lender with a government-backed guarantee potentially enabling a 'no' credit decision from a lender to become a 'yes'. The borrower always remains 100% liable for the debt.</p> <p>CBILS: KEY FEATURES</p> <p>Up to £5m facility: The maximum value of a facility provided under the scheme will be £5m, available on repayment terms of up to six years.</p> <p>80% guarantee: The scheme provides the lender with a government-backed, partial guarantee (80%) against the outstanding facility balance, subject to an overall cap per lender.</p> <p>No guarantee fee for SMEs to access the scheme: No fee for smaller businesses. Lenders will pay a fee to access the scheme.</p> <p>Interest and fees paid by Government for 12 months: The Government will make a Business Interruption Payment to cover the first 12 months of interest payments and any lender-levied fees, so smaller businesses will benefit from no upfront costs and lower initial repayments.</p> <p>Finance terms: Finance terms are up to six years for term loans and asset finance facilities. For overdrafts and invoice finance facilities, terms will be up to three years.</p> <p>Security: At the discretion of the lender, the scheme may be used for unsecured lending for facilities of £250,000 and under. For facilities above £250,000, the lender must establish a lack or absence of security prior to businesses using CBILS. If the lender can offer finance on normal commercial terms without the need to make use of the scheme, they will do so.</p> <p>The borrower always remains 100% liable for the debt.</p> <p>https://www.british-business-bank.co.uk/ourpartners/coronavirus-business-interruption-loan-scheme-cbils/</p> <p>John Carmody John.Carmody@british-business-bank.co.uk</p>

About us

The 48 members of the **European Association of Guarantee Institutions (AECM)** are operating in 29 countries in Europe. They are either private sector guarantee schemes or public promotional institutions or banks. Their mission is to support SMEs in getting access to finance. They provide guarantees to SMEs that have an economically sound project but do not dispose of sufficient bankable collateral. AECM's members operate with counter-guarantees from regional, national and European level. At the end of 2018 AECM's members had more than EUR 112 billion of guarantee volume in portfolio, thereby granting guarantees to almost EUR 3 million SMEs. AECM's members are by far the most important counterparts of the EIF concerning EU counter-guarantees, handling EU guarantees from the very beginning in 1998.
