Call for an ambitious InvestEU budget to respond to economic consequences of COVID19

Sehr geehrter Herr Kommissar Hahn,

Since 1998, guarantee institutions have been using EU financial instruments to support small and medium-sized enterprises to get access to finance. This support is necessary because of a market failure in the area of SME lending¹. In a crisis situation, guarantee institutions take up a second important role: the role of **counter-cyclical stabilisers for SME financing**. During the financial crisis of the late noughties, guarantee institutions jumped in where commercial banks have retreated from risk taking.

Guarantee institutions will still take a counter-cyclical role in the current COVID-19 crisis. They reacted in no time to an unprecedented increase in demand for SME guarantees. The **budget increases for COSME and InnovFin from EFSI funds are of great help**. However, this is only the beginning of the economic and social consequences of the COVID-19 pandemic. It is of utmost importance to sustain EU support for SMEs over the upcoming years.

That is why we plead for a **strong InvestEU programme with a significant budgetary allocation**. InvestEU should be at the core of a European Marshall plan with the capacity to carry on the success of Juncker Plan. Especially the SME window under InvestEU is expected to deliver a major contribution to overcoming the crisis. In this context, we would like to underline that the highest impact can be achieved by counter-guarantees channeled to the SMEs via guarantee institutions.

We invite the European Commission to propose an InvestEU budget that meets the challenges arising from the COVID-19 pandemic. A financial allocation below the current Commission proposal would seriously impair efforts to mitigate the economic and social consequences of the crisis.

A political agreement on the next MFF is likely not to come in time and, as a consequence, the new programmes will not be ready by 1st January 2020. In order to protect final beneficiaries such as SMEs and to avoid a gap year, it is **necessary to set up a contingency plan and a safety net**. Such a gap year would be very harmful, especially in the aftermath of the corona crisis. Everything should be done to ensure a stable recovery of the European economy. That is why we strongly support the call for an **extension of the time limits of financial instruments under the current MFF**, notably COSME, InnovFin, CCS and EaSI, and for an **update of the relevant financial amounts on the basis of a technical prolongation of the 2020 levels**.

Guarantee institutions stand ready to support small and medium-sized enterprises also throughout the current crisis. A non-exhaustive list of actions already taken by our members can be seen in the annex of this letter. In order to uphold this strong commitment, guarantee institutions need strong backing by the European Union. That is what we kindly ask you for.

Yours sincerely,

Bernhard Sagmeister

About us

The 48 members of the **European Association of Guarantee Institutions (AECM)** are operating in 29 countries in Europe. They are either private sector guarantee schemes or public promotional institutions or banks. Their mission is to support SMEs in getting access to finance. They provide guarantees to SMEs that have an economically sound project but do not dispose of sufficient bankable collateral. AECM's members operate with counter-guarantees from regional, national and European level. At the end of 2018 AECM's members had more than EUR 112 billion of guarantee volume in portfolio, thereby granting guarantees to almost EUR 3 million SMEs. AECM's members are by far the most important counterparts of the EIF concerning EU counter-guarantees, handling EU guarantees from the very beginning in 1998.

<p>3. SOWALFIN Belgium</p>	<p>In order to help companies impacted by the coronavirus crisis, we have a specific mathematical reserve to guarantee :</p> <ul style="list-style-type: none"> - at 50%, with a maximum commitment of EUR 500,000, the existing short-term lines of credit, granted by banks without SOWALFIN guarantee, in order to maintain these means at the disposal of the impacted companies; - at 75%, the new short-term resources that would be granted to companies to help them get through this period of crisis.

	<p>and this, of course, within the overall ceiling of EUR 1,500,000 outstanding per beneficiary.</p> <p>At this stage with payment of a commission of 1% of the annual commitment as a guarantee (a guarantee of 50% of a line of EUR 1,000,000 for 1 year gives an annual commission of EUR 5,000).</p> <p>We also have our service "1890" (website and call number) to answer any questions from affected companies (call number open Monday to Friday from 8am to 7pm) and to inform them precisely about what they could be entitled to according to their situation.</p> <p>We are in the process of identifying other measures falling within the scope of SOWALFIN's missions that would enable the impacted companies to alleviate cash outflows: moratoria on our credits, guarantees within the framework of moratoria of minimum 3 to 6 months granted by banks on investment credits initially not guaranteed by SOWALFIN.</p> <p>For the criteria, we will rely on the elements provided by the banks, our guarantees being granted on an individual basis.</p>
<p>4. PMV/z- Waarborgen nv Belgium</p>	<p>There is a decision for an additional guarantee in Flanders.</p> <p>100 million of additional guarantees for companies suffering from the corona-virus for new working capital financing (outstanding debts up to 12 months); guarantees up to 5 years, 75% coverage, 0,5% premium (per year), max guarantee amount of 1,5 million euro.</p> <p>https://www.demorgen.be/nieuws/dit-zijn-de-ondersteunende-maatregelen-van-de-vlaamse-regering~b4d1066c/</p> <p>PMV'S FINANCIAL ARSENAL SUPPORTS COMPANIES AGAINST THE IMPACT OF THE CORONA VIRUS:</p> <ul style="list-style-type: none"> • GUARANTEE CAPACITY OF 3.4 BILLION <p>In combination with the recently announced corona crisis guarantee, PMV has a total guarantee capacity of 3.4 billion that will be fully deployed. In addition to the ordinary guarantee scheme and the corona crisis guarantee, the guarantee capacity of Gigarant - for guarantees above one and a half million euros - also doubles to 3 billion euros.</p> <ul style="list-style-type: none"> • CORONA CRISIS GUARANTEE <p>The Flemish government decided to expand the existing 'generic' guarantee scheme, with an already marketed capacity of 300 million euros, with a corona crisis guarantee of 100 million euros. Further extension of the guarantee capacity can be considered if necessary. Under the 'generic guarantee scheme', an existing credit line, credit or a lease for which a guarantee already exists can already be extended.</p> <p>For companies that, due to the impact of the corona virus in particular, have been unable to pay outstanding invoices for longer, the Flemish government is now also making it easier to find financing for their working capital at the bank. The Coronavirus guarantee (EUR 100 million) also allows businesses</p>

	<p>and self-employed persons to guarantee bridging loans for up to 12 months for existing non-bank debts, while this is only possible for up to 3 months for the existing guarantee scheme. The 12-month period must be counted from the date of signature of the credit contract.</p> <p>Moreover, the cost of the guarantee for the entrepreneur is halved: with the crisis guarantee, this goes to 0.25%.</p> <p>Finally, under the EUR 100 million Corona crisis guarantee, bank debts (in addition to supplier debts) of existing credit lines and investment credits that have not yet been placed under guarantee can be guaranteed, insofar as the bank is also prepared to allow a minimum of 3 months payment delay or maintain credit lines. In this way, the crisis guarantee serves as a catalyst for a flexible banking policy towards companies.</p> <p>In addition, the coronavirus guarantee is extended with the possibility of a 50% guarantee on short-term credit lines, provided that they are retained for at least 3 months.</p> <p>More information about the Corona crisis guarantee and how to apply for it <u>can</u> be found <u>here</u>.</p> <ul style="list-style-type: none"> • GUARANTEE CAPACITY OF 3 BILLION EUROS VIA GIGARANT <p>In the context of the temporary relaxation of European state aid rules in the context of the Corona crisis, Gigarant will be able to market an adapted COVID-19 guarantee, which will provide more flexibility</p> <ul style="list-style-type: none"> • SUBORDINATED LOANS • SUSPENSION OF REPAYMENT FOR 860 SMES • FINANCIAL ASSISTANCE TO COMPANIES <p>You can find more information about the measure <u>on the PMV / z site</u> .</p>

Regarding the guarantees they have increased the coverage rate from 65% to 80% for WC loans and have decreased their fee from 1% to 0,1% (their fee is only one time fee).

<p>27.BBB UK</p>	<p>https://www.british-business-bank.co.uk/ourpartners/supporting-business-loans-enterprise-finance-guarantee/</p> <p>BBB launched the Coronavirus Business Interruption Loan Scheme (CBILS) - a new scheme that can provide facilities of up to £5m for smaller businesses across the UK who are experiencing lost or deferred revenues, leading to disruptions to their cashflow.</p> <p>CBILS supports a wide range of business finance products, including term loans, overdrafts, invoice finance and asset finance. The scheme provides the lender with a government-backed guarantee potentially enabling a 'no' credit decision from a lender to become a 'yes'. The borrower always remains 100% liable for the debt.</p> <p>CBILS: KEY FEATURES</p> <p>Up to £5m facility: The maximum value of a facility provided under the scheme will be £5m, available on repayment terms of up to six years.</p> <p>80% guarantee: The scheme provides the lender with a government-backed, partial guarantee (80%) against the outstanding facility balance, subject to an overall cap per lender.</p> <p>No guarantee fee for SMEs to access the scheme: No fee for smaller businesses. Lenders will pay a fee to access the scheme.</p> <p>Interest and fees paid by Government for 12 months: The Government will make a Business Interruption Payment to cover the first 12 months of interest payments and any lender-levied fees, so smaller businesses will benefit from no upfront costs and lower initial repayments.</p> <p>Finance terms: Finance terms are up to six years for term loans and asset finance facilities. For overdrafts and invoice finance facilities, terms will be up to three years.</p> <p>Security: At the discretion of the lender, the scheme may be used for unsecured lending for facilities of £250,000 and under. For facilities</p>

above £250,000, the lender must establish a lack or absence of security prior to businesses using CBILS. If the lender can offer finance on normal commercial terms without the need to make use of the scheme, they will do so.

The borrower always remains 100% liable for the debt.

CBILS has been significantly expanded along with changes to the scheme's features and eligibility criteria. The changes mean even more smaller businesses across the UK impacted by the coronavirus crisis can access the funding they need.

Importantly, access to the scheme has been opened up to those smaller businesses who would have previously met the requirements for a commercial facility but would not have been eligible for CBILS. **Insufficient security is no longer a condition to access the scheme.**

This significantly increases the number of businesses eligible for the scheme. The expanded scheme will be operational with lenders from Monday 6 April 2020.
